TRAININGS AND PROTOCOLS

1. 2022. Empathic Pain Conversations Brief Training. This condensed training, developed in coordination with the Practice and Leadership Development group with input from care teams and patients, was designed to give medical center teams a brief introduction to Empathic Pain Conversations and provide opportunities to practice using these skills. *Led development.*
2. 2022. reSET/reSET-O Training for PCPs. This training video (adapted from a training for social workers) and supplementary materials (job aid and FAQ) about the reSET/reSET-O apps for substance use disorder provides a streamlined training to allow primary care providers to prescribe the apps to their patients. *Led development.*
3. 2021. Huddle Card Series – Confronting Bias, Stigma, and Racism in Care for Patients with Chronic Pain. This 6-part series was created to support clinic teams to reduce bias, stigma, and racism in care for patients with chronic pain and was developed in response to patient feedback about their care experiences. *Supported development.*
