

CURRICULUM VITAE

Rebecca Yates Coley

Updated: December 29, 2025

1. Educational and Biographical Information

Rebecca Yates Coley, PhD
Associate Investigator
Biostatistics Division
Kaiser Permanente Washington Health Research Institute (KPWHRI)
Kaiser Foundation Health Plan of Washington
1730 Minor Avenue, Suite 1600
Seattle, WA 98101-1448
Email: rebecca.y.coley@kp.org

A.B., Environmental Science and Policy, Duke University, Durham, NC, 2006

M.S., Biostatistics, University of Washington, Seattle, WA, 2010

Ph.D., Biostatistics, University of Washington, Seattle, WA, 2014

Dissertation: *Bayesian Hierarchical Frailty Models for Heterogeneity in Risk*

Advisor: Dr. Elizabeth R. Brown

2. Professional Positions

2025-present	Affiliate Associate Professor, Department of Health Systems and Population Health, University of Washington, Seattle, Washington
2024-present	Affiliate Associate Professor, Department of Biostatistics, University of Washington, Seattle, Washington
2022-present	Associate Investigator, Biostatistics Unit, KPWHRI, Seattle, Washington
2018-2024	Affiliate Assistant Professor, Department of Biostatistics, University of Washington, Seattle, Washington
2016-2022	Assistant Investigator, Biostatistics Unit, KPWHRI (Formerly Group Health Research Institute), Seattle, Washington
2014-2016	Postdoctoral Research Fellow, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
2012-2014	Research Assistant, Microbicide Trials Network, Fred Hutchinson Cancer Research Center, Seattle, WA

- 2008-2012 Research Assistant, Northwest Practice-Based Research Collaborative in Evidence-Based Dentistry, School of Dentistry, University of Washington, Seattle, WA
- 2006-2008 Associate in Research, Children’s Environmental Health Initiative, Nicholas School of the Environment, Duke University, Durham, NC

3. Professional Honors

- 2024 Health Care Heroes Award, Puget Sound Business Journal
- 2023 Emerging Leader Award, Committee of Presidents of Statistical Societies
- 2021 Faculty Mentoring Award, Nominee, KPWHRI
- 2021 Paper of the Year, Health Care Services Research Network
- 2017 Extraordinary Scientific Contributor, KPWHRI
- 2015 Top performing team, Prostate Cancer DREAM Challenge
- 2015 Honorable Mention, Poster Competition, Patrick C. Walsh Prostate Research Day, Baltimore, MD
- 2014 Travel Award, Women in Statistics Conference, Cary, NC
- 2013 Junior Researcher Travel Award, Objective Bayes Workshop, Durham, NC
- 2013 Best Student Poster, Faculty Selection, Department of Biostatistics, University of Washington, Seattle, WA
- 2013 Winner, Oral Presentation, Student Paper Competition, Western North American Region of the International Biometrics Society (WNAR) Annual Meeting, Los Angeles, CA
- 2013 Runner-up, Written Paper, Student Paper Competition, WNAR Annual Meeting, Los Angeles, CA

4. Memberships (current)

American Statistical Association (ASA)

Sections: Biometrics; Health Policy Statistics; Mental Health Statistics; Statistical Learning and Data Sciences; Statistics in Epidemiology

International Biometric Society, Western North America Region (WNAR)

5. Organizational Service, KPWHRI, KPWA, and KP National

2025-Present	AI in Research Advisory Committee
2020-2022	Advanced Analytics Advisory Board, KPWA Business Intelligence
2020-2021	Project Lead, Improving Equity, Inclusion, and Diversity in Hiring
2020-2021	Equity Team
2018	Co-organizer, 3 rd Seattle Symposium in Health Care Data Analytics
2017-2020	Data and Informatics Strategy Committee
2017-2018	Co-chair, Faculty investigator search committee
2017-2018	Coordinator, Scientific seminars series
2017	Organizer, Junior Investigators Support Team
2017	Mentoring award selection committee
2017	Collaborative biostatistician search committee

6. Other Professional Service

a) National Committee Member:

2026-Present	Executive Committee, Health Policy Statistics Section, ASA
2025-Present	Emerging Leader Award Selection Committee, COPSS
2023-Present	Committee on Publications, ASA
2022-2024	LGBTQ+ Advocacy Committee, ASA
2022-2023	Communications Committee Chair, ASA Justice, Equity, Diversity, and Inclusion Outreach Group

b) Conference session organizer

2025	“Recent developments in plasmode simulation studies using electronic health records data” Invited session, <i>WNAR International Biometric Society annual meeting</i>
2024	“Advanced analytics to support learning health systems: A roadmap” Methods panel, <i>Health Care Systems Research Network Annual Meeting</i>
2022	“Equity in innovation: Should race and ethnicity be included in clinical prediction models?” Topic-contributed session, <i>Joint Statistical Meetings</i>
2020	“Promoting hiring practices that advance equity, diversity, and inclusion”, Panel session, <i>Women in Statistics and Data Science</i>
2020	“Fairness and equity in clinical risk prediction: healthcare data for the public good”, Invited session, <i>Joint Statistical Meetings</i>
2019	“Health disparities: Women in statistics making a difference”, Invited session, <i>Women in Statistics and Data Science</i>
2017	“Networking among junior statisticians: Peer mentoring and strategies to promote one another” and “Playing in everyone’s backyard: Stories of success, lessons

learned, and advice for productive and enjoyable collaborations”, Invited panel sessions, *Women in Statistics and Data Science*

- 2017 “Towards a learning health system: methods and strategies for data-driven healthcare”, Invited session, Health Policy Section, *Joint Statistical Meetings*
- 2017 “Statistical methods in medicine”, Invited session, *International Society for Business and Industrial Statistics*
- 2016 “Learning health systems: from ideas to reality”, Roundtable, Health Policy Section, *Joint Statistical Meetings*
- 2016 “Innovative Bayesian methods for missing data”, Invited session, *International Society for Bayesian Analysis*
- 2014 “Statistical challenges in HIV prevention”, Invited session, *WNAR International Biometric Society annual meeting*

c) Local service and involvement, University of Washington

- 2024-Present Member, Academic Affairs Committee; Department of Health Systems and Population Health
- 2020-2021 Member, Equity, Inclusion, and Diversity Committee; Department of Biostatistics
- 2016-2017 Faculty advisor Student seminar series (Fall 2016, Fall 2017); Department of Biostatistics
- 2013-2014 Student representative, Educational Policy and Teaching Evaluation/Curriculum Committee; Department of Biostatistics

7. Special National and International Responsibilities

Ad hoc reviewer for research proposals from granting agencies:

- PCORI Intellectual and Developmental Disabilities Panel, Fall 2025
- PCORI Mental and Behavioral Health Review Panel, Summer 2025
- National Institutes of Health Special Emphasis Panel, Summer 2024, Summer 2025
- Centers for Disease Control and Prevention, Comprehensive Analysis, Surveillance, and Statistics Initiative for Diabetes in the Young (CASSIDY), Spring 2025
- National Institute of Mental Health Non-Pharmacological Clinical Trials Panel, Winter 2025
- PCORI Addressing Rare Diseases Panel, Fall 2024
- Swiss National Science Foundation, December 2023
- National Institutes of Health Analytics and Statistics for Population Research, Spring 2023
- PCORI Assessment of Diagnosis, Prevention, and Treatment Options: Spring 2019, Spring 2020, Summer 2020, Fall 2021, Fall 2022

PCORI Phased Large Awards in Comparative Effectiveness Research
(PLACER): Spring 2021, Spring 2022

Ad hoc study committee:

National Academies of Science, Engineering, and Medicine: Mental Health
Effects of Toxic Exposure Among Veterans (2024-2025)

8. Editorial Responsibilities

Editorial activities

- 2024-Present Associate Editor for Equity, Inclusion, and Diversity, *Journal of Statistics and Data Science Education*
- 2021-2023 Editorial Board, Statistical Reviewer, *Journal of the American Medical Informatics Association*

Referee for: (past 10 years)

Journals:

- American Journal of Epidemiology
- American Journal of Psychiatry
- Archives of Suicide Research
- Biostatistics
- Biometrics
- BJU International
- BMJ
- BMJ Health and Care Informatics
- BMJ Leader
- BMJ Open
- British Journal of Psychiatry
- Cancer Epidemiology, Biomarkers and Prevention
- Crisis: The Journal of Crisis Intervention and Suicide Prevention
- Health Affairs
- International Journal of Public Health
- Journal of the American Statistical Association
- Journal of the American Medical Informatics Association
- Journal of Clinical Epidemiology
- Journal of Clinical Psychiatry
- Journal of Medical Economics
- Journal of Psychiatric Research

Journal of the National Comprehensive Cancer Network
Learning Health Systems
New England Journal of Medicine
NEJM Evidence
npj Mental Health Research
Psychiatric Research
Scientific Reports
Stat
Statistics in Medicine
Statistics in Public Policy
Vaccine

Conferences:

- 2023 Program Committee Reviewer, Conference on Health, Inference, and Learning
- 2023 Program Committee Reviewer, Association for Computing Machinery's Conference on Fairness, Accountability, and Transparency (FAcCT)
- 2022 Program Committee and Student Paper Committee reviewer, International Conference on Health Policy Statistics (for 2023 conference)
- 2022 Program Committee Reviewer, FAcCT
- 2019 Program representative for ASA's Biometrics Section, Eastern North American Region of the International Biometrics Society (ENAR) Annual Meeting

9. Research Funding

1. Co-Investigator (0.05 FTE): *Identifying and Addressing Bias in Depression and Anxiety Quality*. R01 MH137060-01 (PI: Simon) NIMH; 8/7/2024 - 4/30/2027
2. Co-Investigator, Co-Director of Research Data and Analysis Core (0.20 FTE): *Washington Learning Health System Embedded Scientist Training and Research Center*. P30 HS029737 (MPIs: Lozano, Ralston) AHRQ; Total costs: \$2,317,382. 1/1/2024 - 12/31/2028
3. Principal Investigator (0.25 FTE): *Innovative methods to reduce racial and ethnic disparities in suicide risk prediction*. R01 MH125831 (PI: Coley) NIMH; Direct costs: \$1,136,381. 1/1/2022-12/31/2025.
4. Co-Investigator (0.20 FTE): *Low-Cost Detection of Dementia Using Electronic Health Records Data: Validation and Testing of the eRADAR Algorithm in a Pragmatic, Patient-Centered Trial*. R01 AG069734 (MPIs: Dublin [contact PI], Barnes) NIA; Direct costs: \$4,136,047. 9/30/2020-1/31/2026.
5. Co-Investigator (0.15 FTE); *Identifying and Supporting Patients with Undiagnosed Dementia Using the EHR Risk of Alzheimer's and Dementia Assessment Rule (eRADAR): A Pilot Clinical Trial*. R01 AF067427 (MPIs: Dublin [contact PI], Barnes) NIA; Direct costs: \$3,098,307. 7/15/2020-4/30/2024.

6. Co-Investigator (0.15 FTE); *Leveraging Machine Learning to Improve Risk Prediction for Chemotherapy Induced Neuropathy*. R01 CA249127 (MPIs: Adams [contact PI], Chubak) NCI; Direct costs (KPWHRI subcontract): \$525,810. 6/1/2020-5/31/2025.
7. Co-Investigator (0.20 FTE); *Center for Accelerating Care Transformation (ACT Center)*, formerly Learning Health System Program; (MPIs: Coleman, Lozano, Westbrook) Kaiser Permanente Washington; Direct costs (2022 only): \$2,235,000; 6/1/2017-12/31/2024.
8. Co-Investigator (0.05 FTE); *Mental Health Research Network III: Administrative Core*. U19MH121738 (PI: Simon) NIMH. Total costs: \$6,095,800. 9/2019-6/2024.
9. Co-Investigator (0.10 FTE); *Effects of Medical Products on Suicidal Ideation and Behavior—Real World Evidence*. HHSF 223201810201C (PI: Simon) FDA. Direct costs: \$2,024,297. 9/30/2018-5/31/2022.
10. Co-Investigator (0.15 FTE); *Risk-based Breast Cancer Screening and Surveillance in Community Practice- Statistical Coordinating Center*. P01 CA154292. (PI: Miglioretti) NCI; Direct costs: \$1,803,148; 7/1/2017-5/31/2022.
11. Co-Investigator (0.20 FTE); *PCORnet Bariatric Study*. OBS 1505-30683 (PI: Arterburn) PCORI; Direct costs: \$4,054,622; 2/1/2016-2/28/2022.
12. Co-Investigator (0.20 FTE); *A Targeted Approach to a Safer Use of Antipsychotics in Youth*. HHSN 271201600002C (PI: Penfold) NIMH; Direct costs: \$7,218,997. 4/25/2016-12/24/2021.
13. Co-Investigator (0.20 FTE); *Comparative Effectiveness of Breast Cancer Screening and Diagnostic Evaluation by Extent of Breast Density*. PCD 1504-30370 (PI: Miglioretti) PCORI; 9/1/2016-1/31/2021.
14. K12 Fellow (0.75 FTE); *Consortium for Applied Training to Advance the Learning Health System with Scholars/Trainees*. K12 HS026369 (MPIs: Buist [contact PI], Lozano) AHRQ; 1/1/2019-12/31/2020.
15. Co-Investigator (0.20 FTE); *Mental Health Research Network: Computation Modeling to Predict Suicide Behavior*. 3U19 MH092201-07S1 (PI: Simon) NIMH; 7/1/2017-6/30/2019.
16. Co-Investigator (0.20 FTE); *Feedback-Informed Care* (PI: Simon) Garfield Foundation; 2017-2018.
17. Co-Investigator (0.20 FTE); *Bayesian Hierarchical Models for the Design and Analysis of Studies to Individualize Healthcare* (PI: Zeger) PCORI; 6/1/2015-5/31/2018.
18. Instructor (0.20 FTE); *Data Analysis and Visualization Practicum for Individualized Health*. Johns Hopkins University Center for Educational Resources; 8/1/2015-5/13/2016.
19. Postdoctoral Research Fellow (0.50 FTE); *Stochastic Models of Prostate Cancer Screening and Treatment Decisions* (PI: Zeger) Patrick C. Walsh Prostate Cancer Research Fund; 8/18/2014-6/30/2016.
20. Graduate Student Research Assistant (0.50 FTE); *Microbicide Trials Network- Statistical and Data Management Center* (PI: Brown) NIAID; 9/16/2012-9/15/2014.

10. Teaching and Mentoring Responsibilities

a) Instructor

Health Services 524: Advanced Health Services Research Methods II: Hierarchical and Incomplete Data, Department of Health Systems and Population Health, University of Washington, Winter 2026

Health Services 523: Advanced Health Services Research Methods I: Large Public Datasets and Big Data, Department of Health Systems and Population Health, University of Washington, Fall 2024, Fall 2025

Statistics 590: Consulting, Department of Statistics, University of Washington, Spring 2021.

Public Health Studies AS.280.423: Data Visualization for Individualized Health, Department of Public Health Studies, Johns Hopkins University. Spring 2016.

b) Teaching assistant

Biostatistics 140.711: Advanced Data Science, Department of Biostatistics, Johns Hopkins University, Fall 2015.

Biostatistics 514/7: Applied Biostatistics, Department of Biostatistics, University of Washington, Fall 2013.

Biostatistics 571: Regression Methods for Dependent Data, Department of Biostatistics, University of Washington, Winter 2011.

Biostatistics 570: Regression Methods for Independent Data, Department of Biostatistics, University of Washington, Fall 2010.

Statistics 101: Introduction to Statistical Inference, Department of Statistics, Duke University, Fall 2005-Spring 2006.

c) Other teaching

Short courses

Statistical methods for electronic health record data.

International Conference on Health Policy Statistics, San Diego, CA. Co-Instructor. January 2025

American Causal Inference Conference, Seattle, WA. Co-Instructor. May 2024

International Conference on Health Policy Statistics, Scottsdale, AZ. Co-Instructor. January 2023.

6th Seattle Symposium in Biostatistics, Virtual. Co-Instructor. November 2020.

How to make a picture worth a thousand words: Effectively communicating your research results using statistical graphics. Society for Epidemiologic Research Annual Meeting short course, Seattle, WA. Co-Instructor. June 2017.

Guest lecturer

HSERV 592: Health Services Research Seminar, Department of Health Systems and Population Health, University of Washington. Guest presentation on statistical methods for research proposals. November 2025.

Mental Health Research Network T32 Post-doctoral Fellowship Program, Henry Ford Health System. Virtual. Guest lecture on prediction modeling with electronic health record data. October 28, 2021; December 14, 2023; November 13, 2025

Health Services 523: Advanced Health Services Research Methods, Department of Health Systems and Population Health, University of Washington, Virtual. Guest lectures on electronic health record data, prediction modeling, and health equity. November 13, 2023 and November 15, 2023.

Mental Health Research Network T32 Post-doctoral Fellowship Program, Henry Ford Health System. Virtual. Guest lecture on prediction modeling research in the Mental Health Research Network. November 17, 2022.

Health Services 525: Advanced Health Services Research Methods 3, Department of Health Systems and Population Health, University of Washington, Virtual. Guest lecture on prediction modeling with electronic health records data. April 8, 2022.

Mental Health Research Network T32 Post-doctoral Fellowship Program, Henry Ford Health System. Virtual. Guest lecture on predictive analytics for EHR data. October 28, 2021.

Health Services 523: Advanced Health Services Research Methods 1- Large Public Databases and Big Data, Department of Health Systems and Population Health, University of Washington, Virtual. Guest lecture on clinical prediction models and health disparities, December 2, 2020.

Advanced Analytics training program, KPWA Insight, Virtual. Guest lecture on statistical methods for prediction. June 17, 2020.

Biostatistics 540: Analysis of Longitudinal Data, Department of Biostatistics, University of Washington, Seattle, WA. Guest lecture on joint modeling for latent class prediction, April 19, 2017.

Clinical and Translational Research Methods, Johns Hopkins Summer Institute of Epidemiology and Biostatistics, Baltimore, MD. Guest lecture on applications of individualized medicine and learning health systems to active surveillance of prostate cancer, June 20, 2015.

Biostatistics 563: Computing and Research, Department of Biostatistics, University of Washington, Seattle, WA. Guest lecture on parallel computing, June 30, 2013.

Reading courses

Statistical methods for clinical risk prediction. Reading and lecture series with University of Washington Department of Biostatistics MS students. Virtual. Winter-Spring quarter 2022.

d) Mentored junior faculty

2025-Present Marin Kautz, Assistant Professor, Perelman School of Medicine, University of Pennsylvania (Primary mentor for AIM-AHEAD research fellowship)

2020-2025 Eric Johnson, Collaborative Biostatistician III, KPWHRI. (Primary mentor)

e) Masters theses

2020 (Chair) Qinqing Liao, MS Biostatistics, University of Washington, Seattle, WA
2023(Co-chair) Emily Minus, MS Biostatistics, University of Washington, Seattle, WA
2023(Reader) Cynthia Wu, MS, Biostatistics, University of Washington, Seattle, WA

f) Dissertation committees

2023(Member) Charles Wolock, PhD Biostatistics, University of Washington, Seattle, WA

g) Other mentoring and supervising

2022-2024 Sofia Barragan, Graduate Research Assistantship Supervisor,
Department of Biostatistics, University of Washington, Seattle, WA
2021-2025 Runjia Zou, Graduate Research Assistantship Supervisor (2023-),
MS Graduate Research Assistantship Supervisor (2021-2023),
PhD Graduate Research Assistantship Supervisor (2023-2025)
Department of Biostatistics, University of Washington, Seattle, WA
2021-2023 Ziyi Chen, MS Capstone Research Internship Co-Supervisor,
Department of Biostatistics, University of Washington, Seattle, WA
2019-2021 Ernesto Ulloa de Perez, Graduate Research Assistantship Supervisor,
Department of Biostatistics, University of Washington, Seattle, WA
2019-2020 Laura Ichikawa, Collaborative biostatistician, Supervisor, KPWHRI
2018-2019 Adam Elder, Graduate Research Assistantship Supervisor,
Department of Biostatistics, University of Washington, Seattle, WA
2015-2017 Jay Bindman, Fellowship Mentor, Provost's Undergraduate Research Award,
Johns Hopkins University, Baltimore, MD
2015-2016 Aaron Fisher, Graduate Research Assistantship Supervisor,
Department of Biostatistics, Johns Hopkins University, Baltimore, MD

Senior biostatistician on projects supporting collaborative biostatisticians:

Current: Abisola Idu, KPWHRI; Rob Wellman, KPWHRI

Previous: Kara Haugen, KPWHRI; Laura Ichikawa, KPWHRI; Eric Johnson, KPWHRI;
Annie Piccorelli, KPWHRI; Julia Smith, KPWHRI; Rod Walker, KPWHRI

11. Publications

*Mentored work of student first-author

^Co-first author

‡Contribution as primary analyst

†Contribution as lead statistician (notation limited to papers for which I was not first or senior author or primary analyst)

a) Peer-reviewed research articles

1. *Zou R, Williamson BD, Shortreed SM, **Coley RY**. Validation of a risk prediction model in the presence of outcome misclassification. *Statistics in Medicine*. In press.
2. *Minus E, **Coley RY**, Shortreed SM, Williamson BD. (2026) Behavior of prediction performance metrics with rare events. *Journal of Clinical Epidemiology* 189(112046). doi: 10.1016/j.jclinepi.2025.112046.
3. ‡**Coley RY**, Hays R, Pardee RE, Fuller S, Rogers K, Allen CL, Arterburn DE, Frazier RK, Kent DJ, Mun S, Mwatha T, Thottingal P, Westbrook EO. 12. Presentations (Like presentations grouped)

a) Invited presentations

Keynote

“AI in healthcare: Ensuring actionable insight and equitable implementation.” Southeastern Pediatric Research Conference. Atlanta, GA. June 2024

Seminars

“The electronic health record Risk of Alzheimer’s and Dementia Assessment Rule (eRADAR): External validation and embedded pragmatic clinical trial in two real-world healthcare systems.” ASA Statistics and Data Science in Aging Scientific Interest Group webinar. October 2024.

“Improving validity and fairness of EHR research for medically underserved population: assessing fairness of suicide prediction models.” African Diaspora Joint Mathematics Workshop (ADJOINT). Virtual. June 2022.

“Do clinical prediction models perpetuate health disparities?: Assessment of racial and ethnic disparities in suicide prediction models”

Division of Biostatistics, Albert Einstein College of Medicine. Virtual November 2023

Biostatistics Branch, National Cancer Institute. Virtual. January 2023

Department of Biostatistics, The Ohio State University. Virtual. March 2022

Department of Biostatistics, University of Washington. Virtual. October 2021

University of Washington Surgical Outcomes Research Center. Virtual. March 2021

KPWHRI scientific seminar series. Virtual. March 2021

Kaiser Permanente Center for Safety and Effectiveness Research (CESR) Artificial Intelligence Seminar Series. Virtual. December 2020

“Fairness in clinical prediction: assessing racial and ethnic disparities in performance of a suicide risk prediction model” Mental Health Research Network Biostatistics Scientific Interest Group. Virtual. August 2020

“A data science framework for learning health systems.” Henry Ford Health System Cancer Grand Rounds. Detroit, MI. December 2018

“Lead with Statistics: A statistician’s role in learning health systems and the delivery of data-driven health care.” Association of Clinical and Translational Statisticians (ACTStat) annual meeting. Vancouver, BC, Canada. July 2018

“How to make a picture worth a thousand words: Effectively communicating your research results using statistical graphics”

Program in Health Economics and Outcomes Methodology seminar series.
Comparative Health Outcomes, Policy, Economics Institute. University of Washington. Seattle, WA. April 2018

Co-presentation with Jackson M. KPWHRI scientific seminar series, Seattle, WA. July 2017

“Precision Medicine, Learning Health Systems, and Improving Surveillance of Low-Risk Prostate Cancer”

Fred Hutchinson Cancer Research Center Biostatistics Seminar, Seattle, WA. October 2016

Department of Biostatistics, University of Washington, Seattle, WA. October 2016

Group Health Research Institute, Seattle, WA, February 2016

Center for Cancer Statistics, Mayo Clinic, Rochester, MN, February 2016

Department of Biomedical Data Science, Stanford University, Palo Alto, CA, February 2016

RAND Corporation, Santa Monica, CA, February 2016

Biostatistics Research Branch, NIAID, Rockville, MD, February 2016

Department of Biostatistics, Johns Hopkins University, Baltimore, MD, January 2016

Division of Biostatistics, Department of Healthcare Policy and Research, Cornell Weill School of Medicine, New York, NY, January 2016

Data Science Affinity Group, Fred Hutchinson Cancer Research Center, Seattle, WA, October 2015

“Prediction of the Cancer State to Inform a Personalized Management Program for Prostate Cancer.” Grand Rounds, Department of Urology, Johns Hopkins School of Medicine, Baltimore, MD. April 2016

“Optimizing Surveillance of Low-Risk Prostate Cancer: An Application of Precision Medicine and Learning Health Systems at Johns Hopkins.” Data Science Interest Group, Johns Hopkins Medicine, Baltimore, MD, November 2015

“Optimizing Surveillance of Low-Risk Prostate Cancer.” Pacific Northwest Specialized Program of Research Excellence (SPORE), Fred Hutchinson Cancer Research Center, Seattle, WA, October 2015

“Estimating effectiveness in HIV prevention trials with a compound Poisson frailty model.” Department of Biostatistics, Johns Hopkins University, Baltimore, MD, March 2014

International and national meetings

“The electronic health record Risk of Alzheimer’s and Dementia Assessment Rule (eRADAR): External validation and embedded pragmatic clinical trial in two real-world healthcare systems.” *ENAR*. Indianapolis, IN. March 2026. Anticipated.

“The electronic health record Risk of Alzheimer’s and Dementia Assessment Rule (eRADAR): External validation and embedded pragmatic clinical trial in two real-world healthcare systems.” *Joint Statistical Meetings*. Nashville, TN. August 2025

“Plasmode simulations for prediction models” *WNAR Whistler*, BC, Canada. June 2025.

“A simulation framework for understanding the impact of structural racism on clinical prediction models and evaluating bias-mitigating methods” *Joint Statistical Meetings*. Portland, OR. August 2024

“How to accurately validate a prediction model in the presence of outcome misclassification” *WNAR Fort Collins*, CO. June 2024

“Elevating the patient’s voice in cancer care.” Discussant. *Health Care Systems Research Network Annual Meeting*. Milwaukee, WI. April 2024

“Learning health systems case study: Development and implementation of a COVID-19 hospitalization prediction model” *Health Care Systems Research Network Annual Meeting*. Milwaukee, WI. April 2024

“Artificial intelligence ethics: more complex than what you think” *American Society for Hematology Annual Meeting*. San Diego, CA. December 2023.

“Assessing bias in suicide risk modeling” *Kaiser Permanente Algorithm Equity Symposium*. Virtual. September 2023.

“Prediction modeling with EHR data—we aren’t in inference anymore”

Joint Statistical Meetings. Toronto, Canada. August 2023

WNAR. Anchorage, AK. June 2023

“Accurate validation of clinical prediction models in the presence of outcome misclassification” *ENAR*. Nashville, TN. March 2023.

“Systemic racism and its population health impact” *Joint Statistical Meetings*. Washington, DC. August 2022.

“Empirical evaluation of internal validation methods for estimating optimism error in high-dimensional EHR data with rare-event outcomes.” *Joint Statistical Meetings*. Virtual. August 2021.

“Fairness in clinical prediction: assessing racial and ethnic disparities in performance of a suicide risk prediction model.” *Joint Statistical Meetings*. Virtual. August 2020.

“Racial and ethnic fairness in clinical prediction with application to suicide risk”
Women in Statistics and Data Sciences. Bellevue, WA. October 2019
Joint Statistical Meetings. Denver, CO. July 2019

“Biostatistical considerations for suicide risk prediction.” *Research Priorities for Risk Algorithm Applications in Healthcare Settings to Improve Suicide Prevention*. NIMH, Bethesda, MD. June 2019

“Racial and ethnic fairness in suicide risk prediction.” *Research Priorities for Risk Algorithm Applications in Healthcare Settings to Improve Suicide Prevention*. NIMH, Bethesda, MD. June 2019

“A data science framework for learning health systems.” 3rd *Seattle Symposium for Healthcare Data Analytics*. Seattle, WA. October 2018

“Predicting suicide risk: Statistical methods for using EHR data to inform mental health care.” *Joint Statistical Meetings*. Vancouver, BC, Canada. July 2018

“Individualized Decision Support for Men on Active Surveillance.” *CISNET Prostate Cancer Modeling Symposium*. National Cancer Institute, Rockville, MD. November 2017

“Development and implementation of a data-driven clinical support tool for low-risk prostate cancer.” *Johns Hopkins University Statistical Symposium*, Baltimore, MD. September 2017

“Statisticians leading the way: Advocating for learning health systems and collaborating effectively with clinical stakeholders.” *Joint Statistical Meetings*, Baltimore, MD. July 2017

“A data science framework for learning health systems.” *International Society for Business and Industrial Statistics Meeting*, Yorktown Heights, NY. June 2017

“Precision Medicine: Statistical Methods to Improve Patient Outcomes and Support Value-Based Care,” *Eastern North American Region of the International Biometrics Society (ENAR) Annual Meeting*, Washington, DC. March 2017

“Individualized Medicine and Informative Missingness: A Bayesian Approach to Personalized Prostate Cancer Care.” *International Society of Bayesian Analysis Annual Meeting*, Sardinia, Italy. June 2016

“Active Surveillance Modeling and Decision-Making at Johns Hopkins.” *Cancer Intervention and Surveillance Monitoring Network (CISNET) Prostate Cancer Meeting*, National Cancer Institute, Bethesda, MD, November 2015

“Electronic Medical Records for Individualized Health: Application to Low-Risk Prostate Cancer.” *Joint Statistical Meetings*, Seattle, WA, August 2015

“Optimizing Surveillance of Low-Risk Prostate Cancer.” *ENAR Annual Meeting*, Miami, FL, March 2015

“Latent class approach to modeling frailty in HIV prevention trials.” *Western North American Region of the International Biometrics Society (WNAR) Annual Meeting*, Honolulu, HI, June 2014

b) Contributed presentations

“eRADAR detects primary care patients at risk of having undiagnosed dementia in two real-world healthcare systems” *Alzheimer’s Association International Conference*. Virtual. July 2022.

“Informed health decisions through creating a learning ecosystem: Application to active surveillance of low-risk prostate cancer.” *Precision Medicine World Conference*. Mountain View, CA. January 2018

“Very low risk and low risk patients in active surveillance: Is the distinction relevant?” *American Urological Association Annual Meeting*, Boston, MA, May 2017

“Prediction of the cancer state to inform a personalized management program for prostate cancer” *American Urological Association Annual Meeting*, San Diego, CA, May 2016

“Optimizing surveillance of low-risk prostate cancer”

High-Value Research Symposium, Johns Hopkins School of Medicine, Baltimore, MD, February 2016.

International Conference of Health Policy Statistics. Providence, RI. October 2015.

“Stochastic models of prostate cancer screening and detection at Johns Hopkins.” *Patrick C. Walsh Prostate Cancer Research Day*, Department of Urology, Johns Hopkins University, Baltimore, MD, February 2015.

“Latent class approach to survival analysis with a compound Poisson frailty model with an application to HIV prevention.” *Joint Statistical Meetings*. Boston, MA, August 2014.

“Estimating effectiveness in HIV prevention trials with a compound Poisson frailty model.” *WNAR Annual Meeting*. Los Angeles, CA, June 2013. *Winner: Oral Presentation, Student Paper Competition

c) Other oral presentations

“Learning health systems case study: Development and implementation of a COVID-19 hospitalization prediction model” Co-presentation with Mun S, Spotlight presentation for KPWHRI All-Institute meeting. Virtual. September 2024.

Presentation on allowability, John Jackson paper “Meaningful causal decompositions in health equity research.” Co-presentation with Cruz M. Mental Health Research Network Statistics Interest Group. Virtual. March 2024.

“Race and ethnicity in analysis of health care data: Reflections from KPWHRI researchers”. Co-presentation with Chubak J, Gray R, Zeibell R, Cruz M. KPWHRI scientific seminar series. Virtual. September 2021

“Standing on the shoulders of giants: Conducting research when you wish you didn’t have to stand on those guys’ shoulders.” Co-presented with Anau J, Grafton J, Wernli K. KPWHRI scientific seminar series. Seattle, WA. June 2018

“Effective Data Visualization in Practice: Examples from KPWHRI.” Co-presentation with Bobb J, Cahill C, Fuller S, Gray M, Ichikawa L. KPWHRI scientific seminar series, Seattle, WA. October 2017

“Statistical Methods for Individualized Health: Improving Surveillance of Low-Risk Prostate Cancer.” Grand Rounds, Department of Biostatistics, Johns Hopkins University, Baltimore, MD, September 2015

“Heterogeneity in risk: Effects on randomized clinical trial data analysis.” Oral Health Sciences Seminar, University of Washington, Seattle, WA, May 2012

d) Posters

“Individualized medicine and informative missingness: a model for predicting latent prostate cancer state” *Atlantic Causal Inference Conference*, Philadelphia, PA, May 2015

“Dynamic model of prostate disease: predicting reclassification in Johns Hopkins active surveillance cohort” *Patrick C Walsh Prostate Cancer Research Day*, Baltimore, MD, February 2015.

“Latent class approach to survival analysis with a compound Poisson mixture frailty model with application in HIV prevention trials” *Women in Statistics Conference*, Cary, NC, May 2014.

“Estimating effectiveness with a compound Poisson frailty model” *Objective Bayes workshop*, Durham, NC, December 2013.

“Estimating effectiveness in HIV prevention trials with a compound Poisson frailty model” *Annual Retreat*, Department of Biostatistics, University of Washington, September 2013.

13. Learning Health System Science

I provide statistical leadership on many health system projects to improve care delivery. While these projects may not result in traditional academic research products, my contributions have a major impact on clinical care.

KPWA Center for Accelerating Care Transformation (ACT Center) Advanced Analytics Core:

Rehospitalization risk prediction (2024-Present): Evaluated existing risk stratification strategies and developed new machine learning-based risk prediction model for unplanned readmission risk in the 30 days follow hospital discharge. Collaborated with Hospital Service clinical leads to identify reliable clinical records-based data, design and conduct prediction modeling study, and target analysis to guide implementation of available rehospitalization avoidance strategies.

Outcome: Currently guiding implementation of prediction model into electronic health record-based tool; collaborating with clinical and operational partners to design clinical workflow.

Identifying pediatric growth curve failures (2024-Present): Provided technical guidance and analytic support for validating electronic health record-based tool to flag pediatric patients with steep declines in age- and sex-standardized BMI z-scores in order to increase detection of eating disorders and emerging conditions (e.g., Celiac disease) causing weight loss.

Outcome: Currently planning pilot study and provider survey to evaluate impact, implementation of best practice alert indicating growth curve failure during outpatient clinical encounters.

Pharmacy interventions to reduce high-cost and polypharmacy (2023-2025): Consulted with KPWA Pharmacy managers on purchase of an AI platform to recommend cost-saving modifications for

patients on many medications. Designed comparative effectiveness study to independently assess clinical outcomes and return on investment.

Outcome: KPWA Pharmacy canceled vendor contract prior to study due to technical incompatibilities identified when preparing for deployment.

COVID-19 prediction (2022-2024): Developed a risk prediction model for the probability of hospitalization following COVID-19 infection to triage Paxlovid® prescribing. Provided technical guidance for building algorithm into electronic health record. Collaborated with Infectious Disease clinical leads to identify thresholds for intervention, design clinical implementation workflow, and train providers on how to use electronic health record-based tool.

Outcome: COVID-19 hospitalization risk tool is currently being used at KPWA to guide patient and provider decision-making about Paxlovid® treatment.

Promoting health equity (2022): Consulted on statistical methods for KPWA's Quality Improvement dashboards showing variability in NCQA HEDIS quality measures by race and ethnicity.

Outcome: QI dashboards now include measures of variability in performance measures, enabling health system leaders to distinguish between random variability and meaningful disparities.

Patient-centered opioid deprescribing (2021-2025): Statistical lead for an observational stepped wedge trial evaluating a collaboratively designed opioid deprescribing model across 14 medical centers. Led study design and supervised data collection and analysis.

Outcome: The ACT Center's Integrated Pain Management intervention showed meaningful and sustained reductions in high-dose opioid prescribing. It remains in use at participating centers.

Increasing patient access (2018-2022): Validated Epic's no-show prediction model; Designed, conducted, and analyzed randomized quality improvement trial to compare effectiveness of additional text message reminders for Primary Care and Behavioral Health visits at high risk of no-show; Developed, validated, and implemented (ongoing) improved no-show prediction model.

Outcome: KPWA is using no-show risk scores to guide interventions that reduce missed visits.

Sepsis management in Urgent Care (2021): Validated Epic sepsis risk prediction model, including design and analysis of chart review study to adjust for misclassified sepsis outcomes in the EHR.

Outcome: KPWA Urgent Care departments are using prediction model to prompt early detection and treatment of sepsis.

Outreach to close screening gaps (2021): Designed, conducted, and analyzed randomized quality improvement trial to compare reminders via physical mailing to online secure messaging for cancer, diabetes, and sexual health screening measures included in key quality measures.

Outcome: We recommended KPWA continue physical mailings. KPWA Quality Improvement is currently reviewing evidence and considering cost of outreach modalities.

Chronic opioid therapy registry (2020-2021): Validated Epic's risk score for opioid overdose, opioid use disorder diagnosis, and naloxone administration; advised on potential impact of using predictions for prioritizing patient referrals to consultative pain management specialty care.

Outcome: KPWA is not using the Epic tool due to poor performance in member population.

Flu vaccination outreach (2018-2020): Designed and analyzed quasi-experimental quality improvement study of phone call reminders for flu vaccination to members with high ACG® scores.

Outcome: KPWA delivery system used ACG to guide flu vaccination reminders prior to COVID-19 pandemic (and resulting shift in vaccination outreach strategy).

Avoiding ambulatory-care sensitive hospitalization (2018-2019): Validated ACG model for predicting unplanned hospitalizations. Consulted with service providers to understand how ACG scores are used and strategize approaches for targeting limited care management resources.

Outcome: KPWA declined to expand use of ACG for chronic care management due to competing demands. ACT's advanced analytics team are go-to experts for delivery system ACG inquiries.

Johns Hopkins inHealth Projects:

Prostate Cancer Active Surveillance (2014-2017): Developed statistical model to predict risk of developing higher grade cancer among patients originally diagnosed with low-grade disease. Collaborated with providers and patients to design decision support tool to explain predictions.

Outcome: Johns Hopkins Department of Urology began using our prediction model in 2016.
